Other EU Initiatives in Argentina

Market Access Database (MADB)

The MADB offers product-specific information to companies exporting from the EU about import conditions in third-country markets: duties and taxes, import procedures and formalities, and statistics, as well as information on sanitary and phyto-sanitary issues and trade barriers.

Enterprise Europe Network

This [network](#), which brings together around 600 organisations from more than 50 countries, helps small businesses to make the most of the European marketplace.

Working through local business organisations, the EEN offers services for internationalisation and technology transfer, as well as access to finance, legal advice, and general business information.

In Argentina, the network is coordinated by the Ministry of Science, Technology and Innovation and integrated by the Eurocámara, the [CONICET](#) (Scientific and Technical Investigations' National Council) and the [UIA](#) (Argentine Industrial Union).

Latin America IPR SME Helpdesk

Launched in December 2013, this portal offers free-of-charge, first-line support on intellectual property (IP) and matters related to IP rights to facilitate the expansion of European SMEs (both from the EU and from associated countries) that have already established or are working with entities in Latin America, as well as to companies that are potentially interested in establishing commercial and R & D activities and ventures in these countries.
